Working With Challenging Children: Going from at risk to resilient; Looking at the reasons for children's problem behavior and what the role of the teacher is in helping the child succeed and become part of the learning community.

Class ID: 99215/Event #:138443

Saturday November 11, 2023

Teaching Problem Solving, Critical Thinking and Creativity: Children need guidance in learning to play nicely. When children bite, grab, hit, and push while playing they are not playing nicely. By providing guidelines and support they can play and be mindful of their peers' feelings. When children develop problem solving skills as well as critical thinking, they are more capable of solving their own problems and less negative behavioral situations occur.

Class ID: 102113/Event#:138446

Spanish - Teaching Problem Solving, Critical Thinking and Creativity*Enseñanza de Resolución de Problemas, Pensamiento Crítico y Creatividad:* Los niños necesitan orientación para aprender a jugar bien. Cuando los niños muerden, agarran, golpean y empujan mientras juegan, no están jugando bien. Al proporcionar pautas y apoyo, pueden jugar y ser conscientes de los sentimientos de sus compañeros

Play-Based Learning: What It Is and Why It Should Be a Part of Every Classroom

Renowned psychologist and child development theorist, Jean Piaget, was quoted in his last years as saying “Our Real problem is - what is the goal of education? Are we forming children that are only capable of learning what is already known? Or should we try developing creative and innovative minds, capable of discovery from preschool age on throughout life?” (<https://www.britannica.com/biography/Jean-Piaget>)

Let’s examine a play-based approach in the early childhood classroom.
